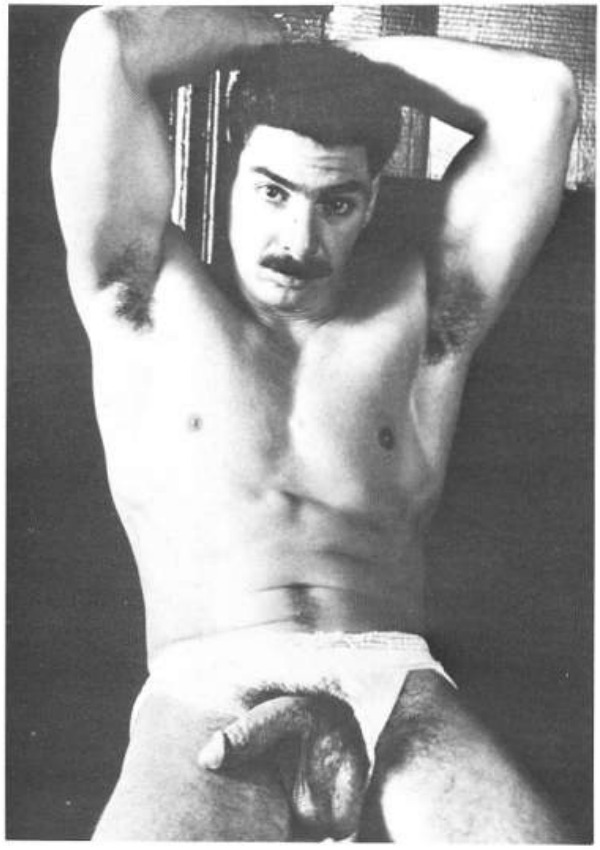
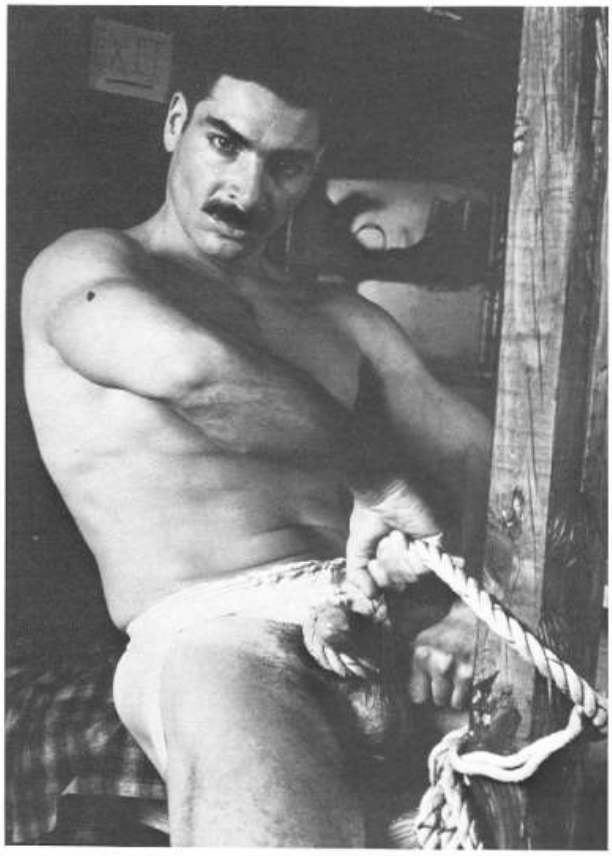
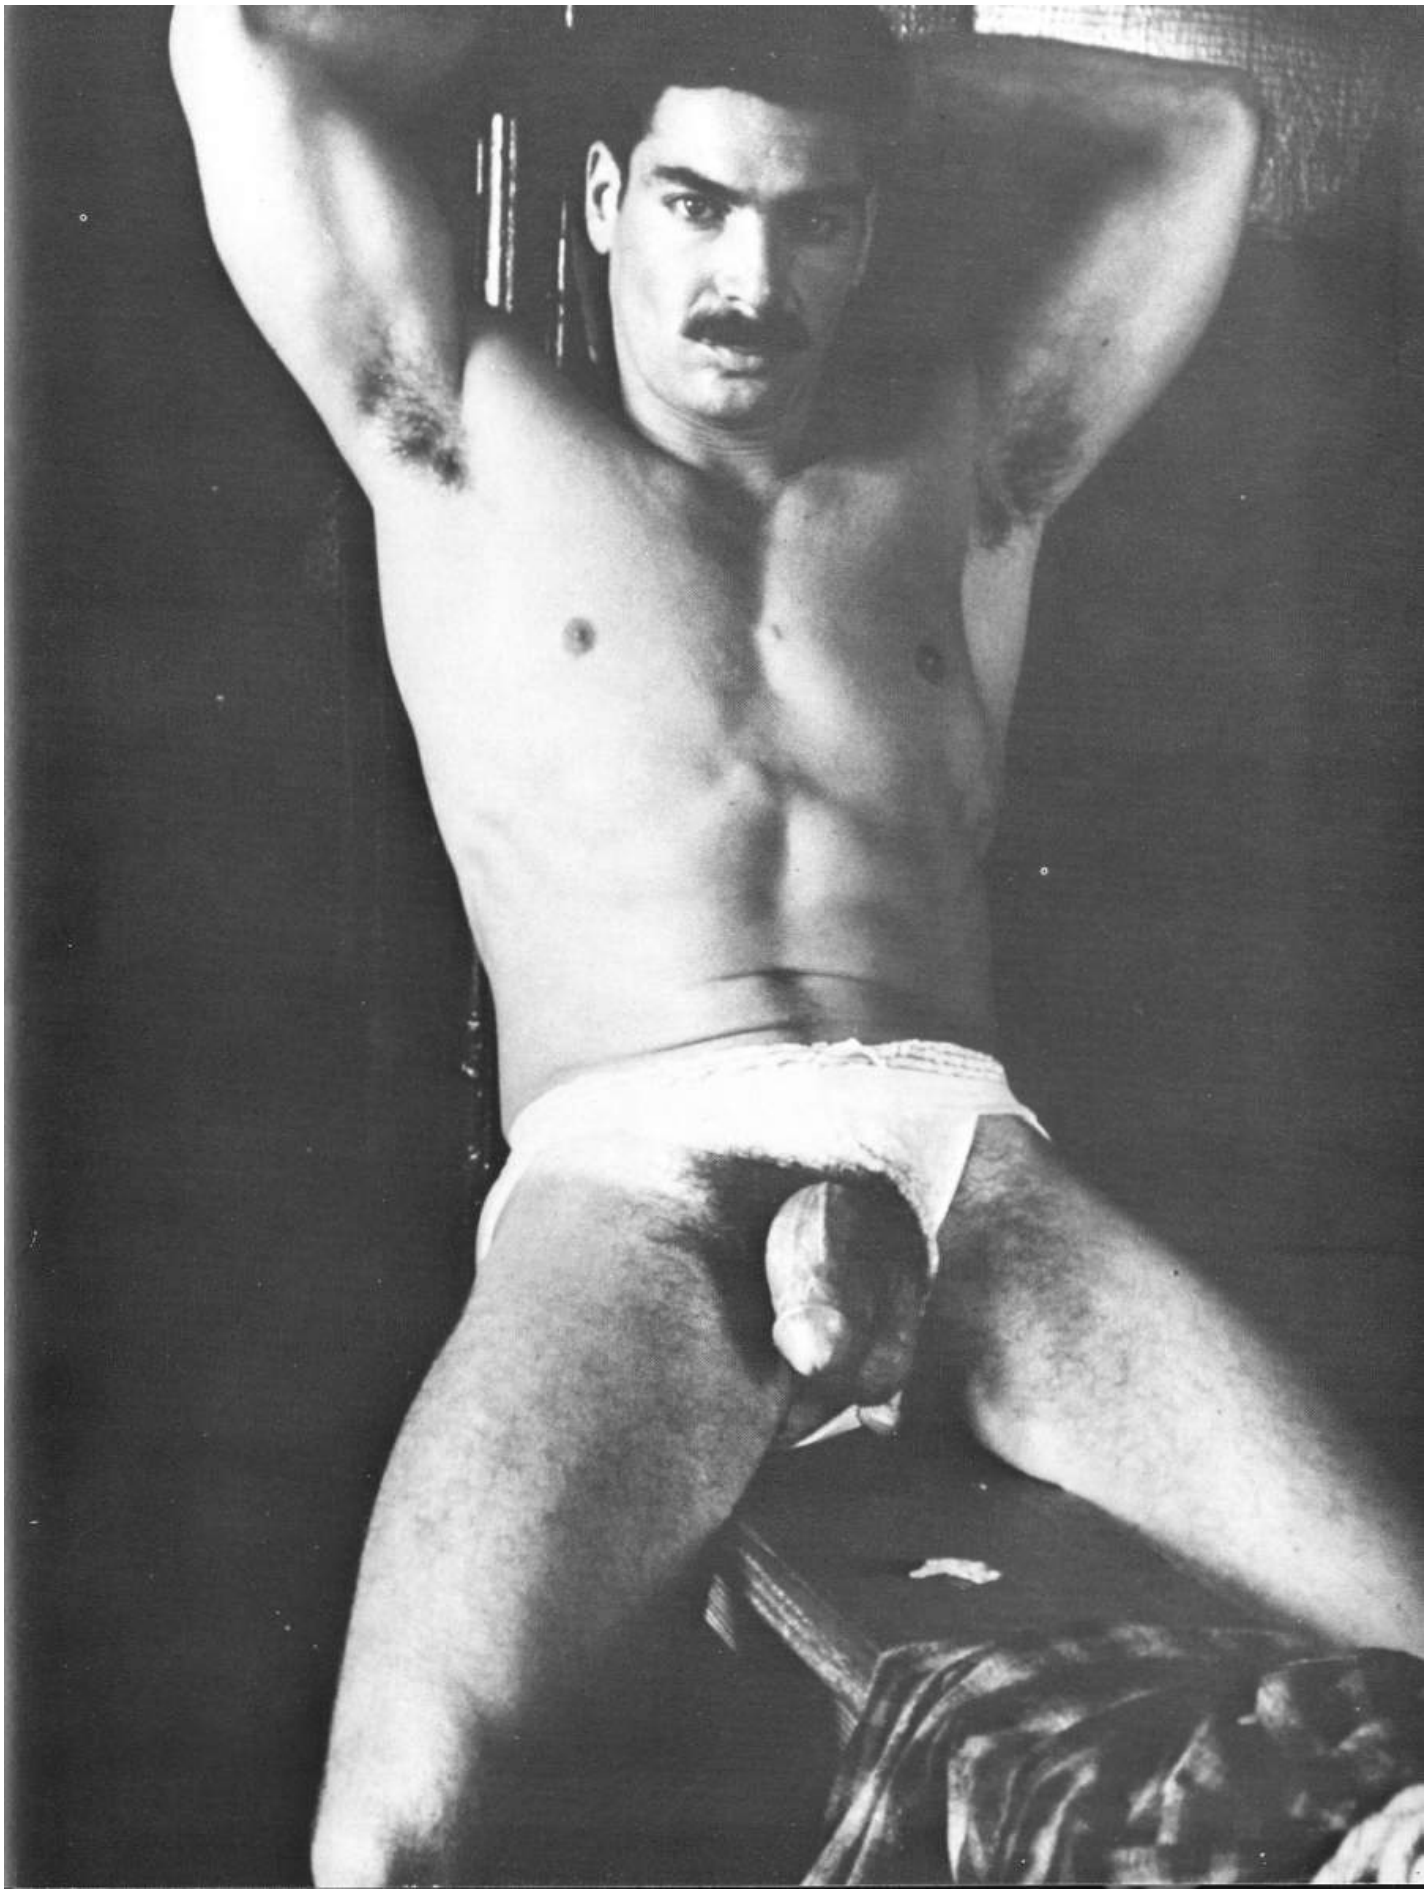
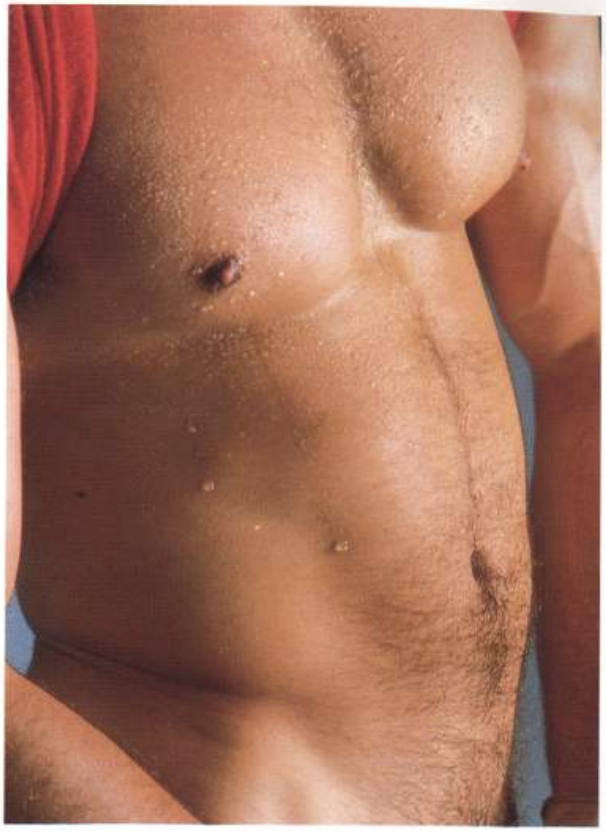
"After a hot morning's work there's nothing I like more than setting my working tools aside and doing some handiwork with my 'pleasure tool'. It beats a nap on a hot summer day anytime!"

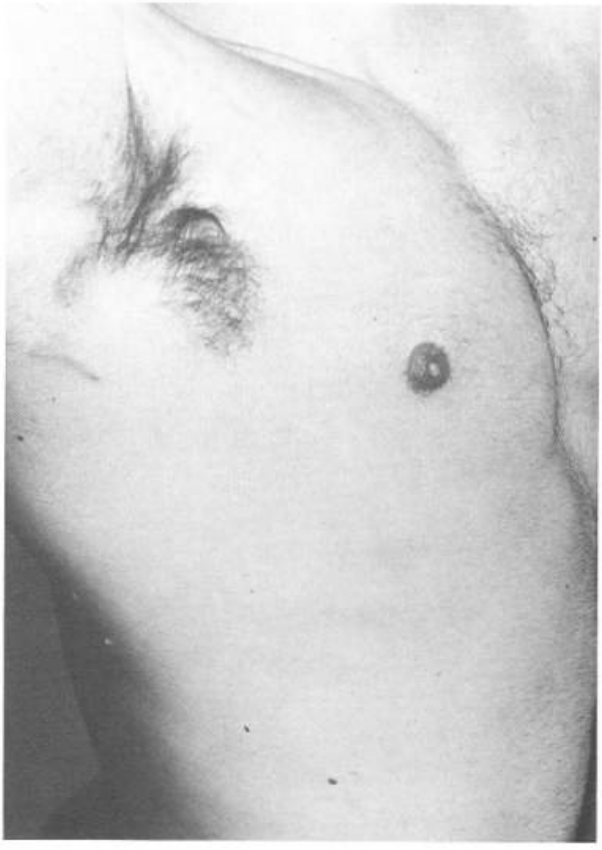




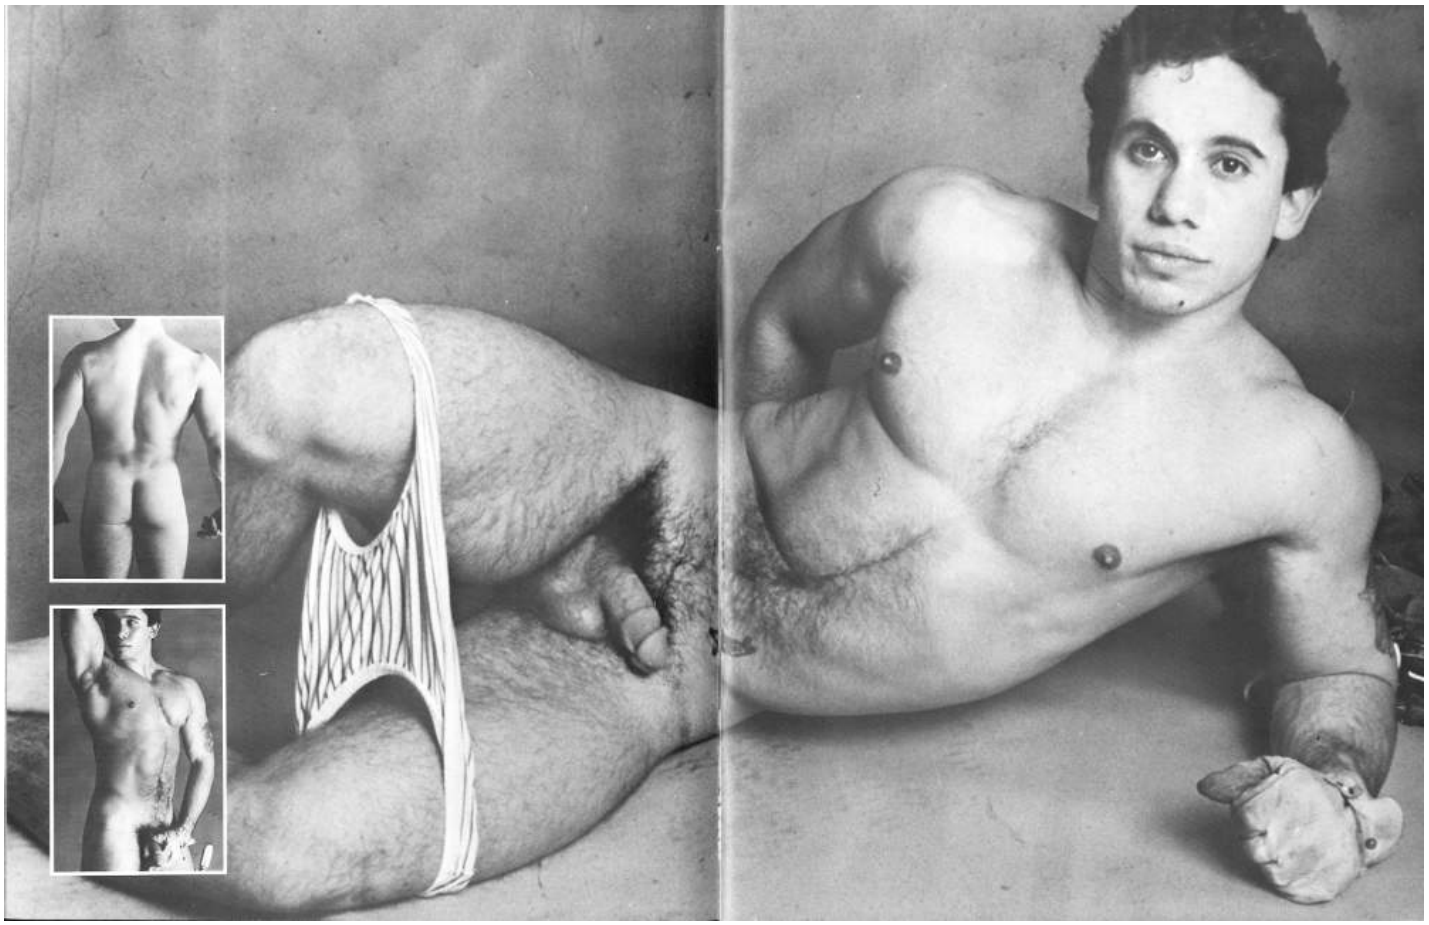


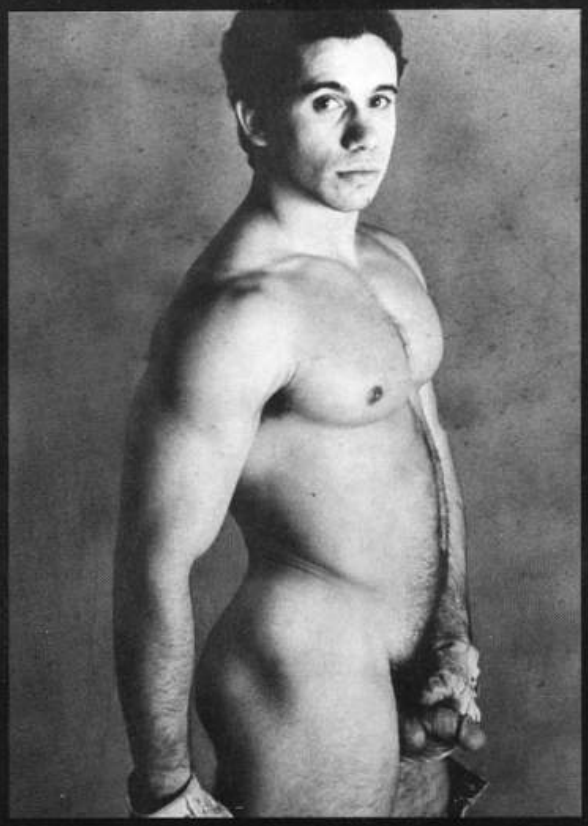


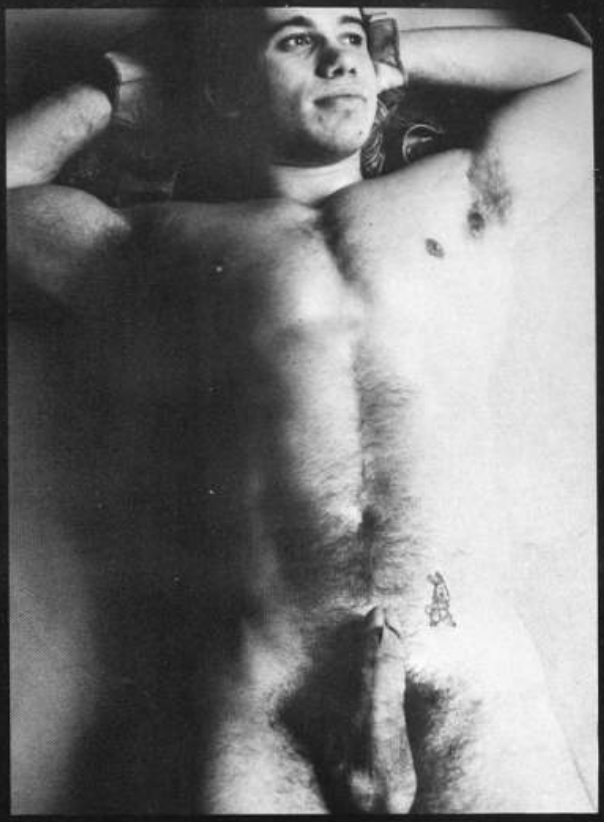
41588 / W.F.

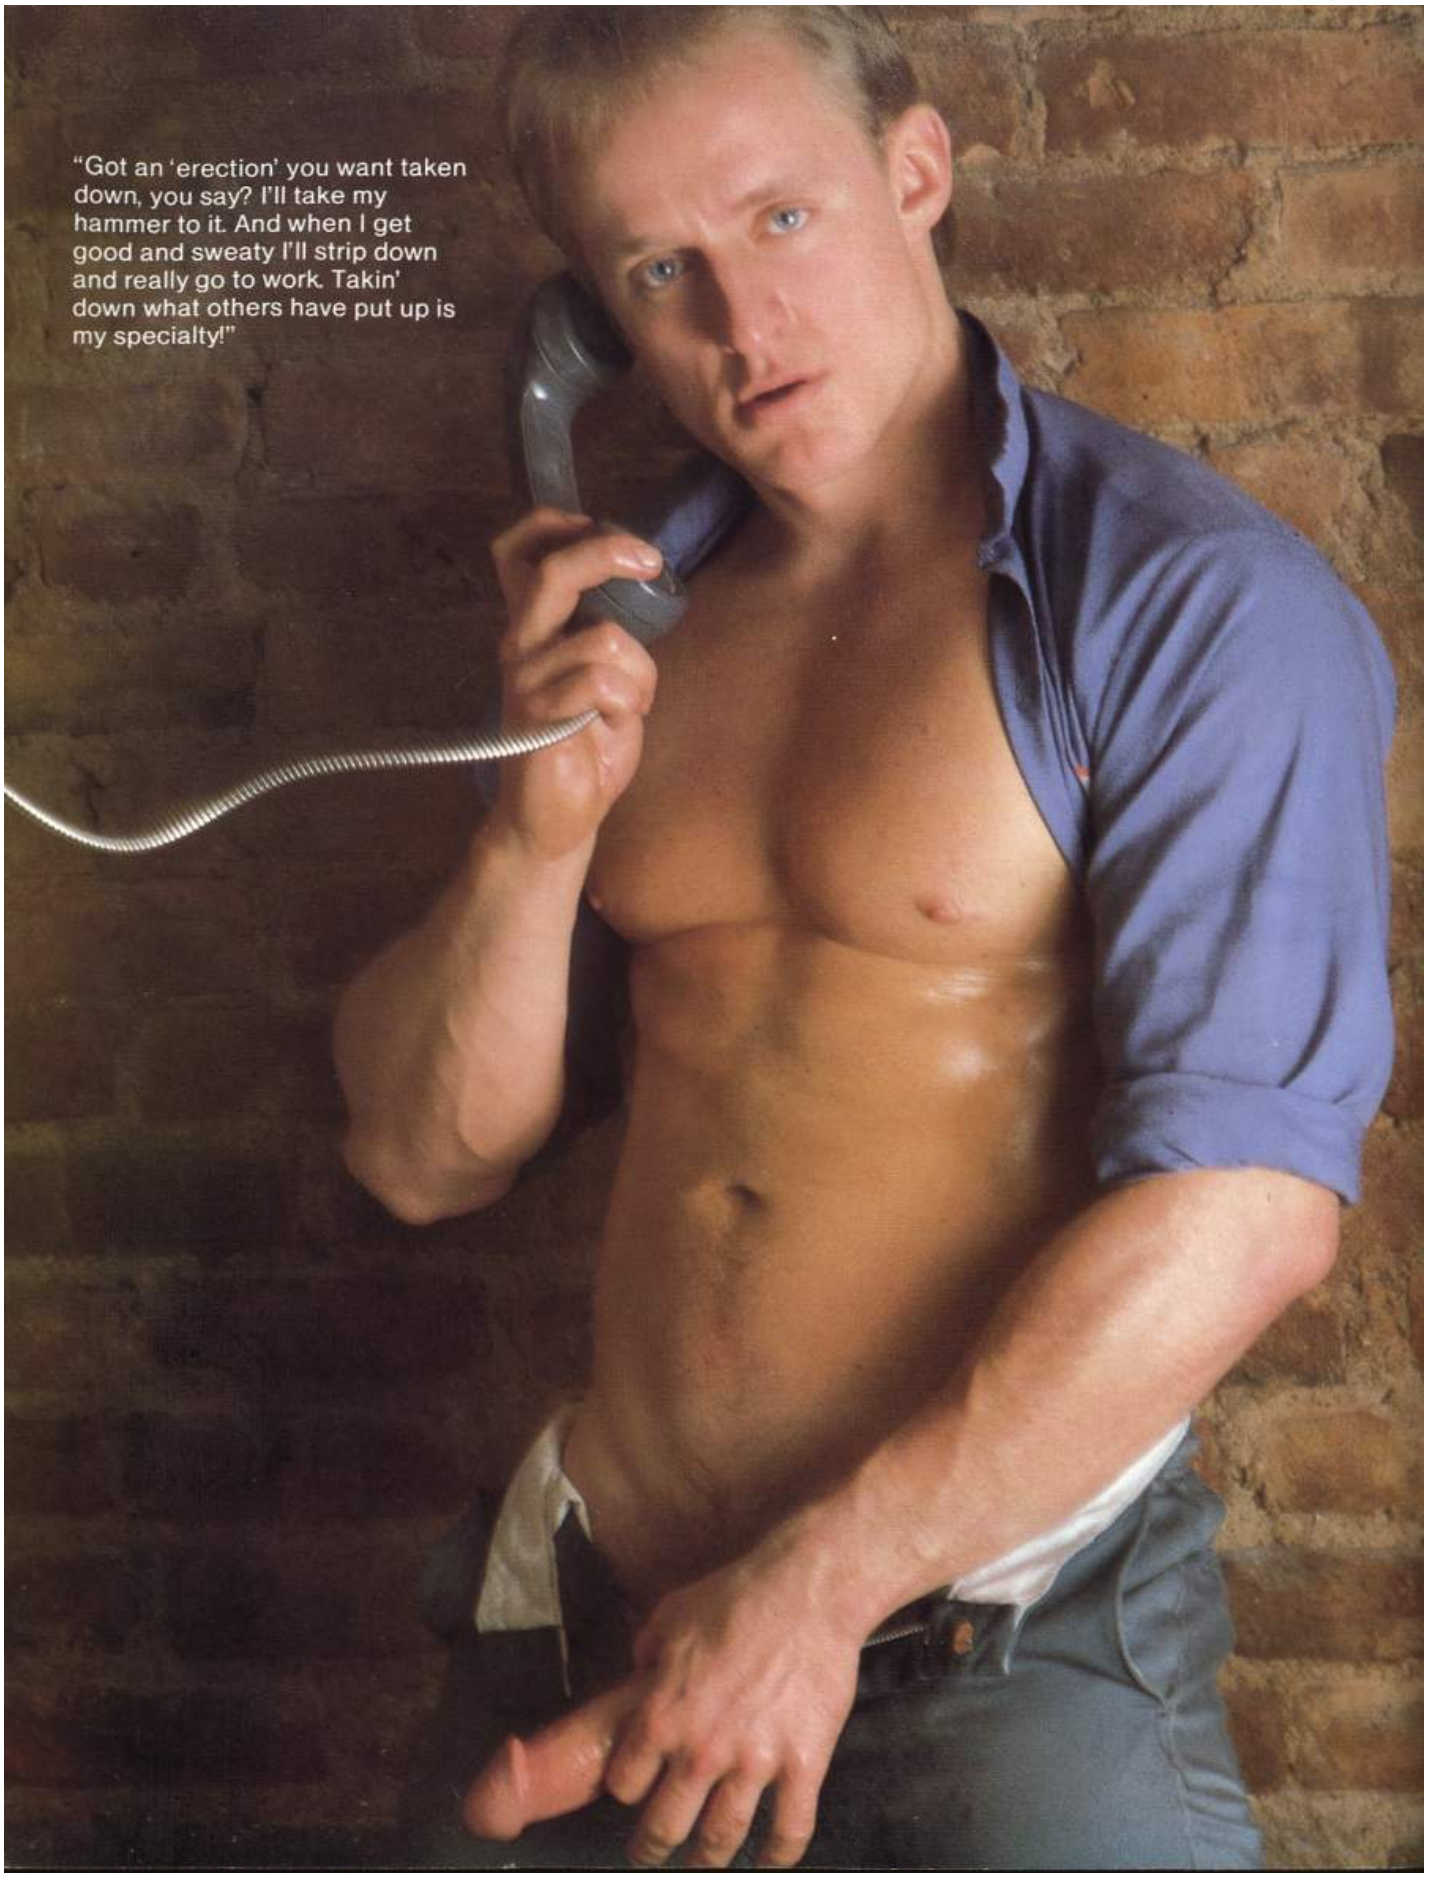


"There's nothin' I like more than settin' a screw in place and then workin' it into a tight hole. I have an enormous variety of screwdrivers in my tool kit, but for special jobs I always use the 'driver' I was born with!"









"Got an 'erection' you want taken down, you say? I'll take my hammer to it. And when I get good and sweaty I'll strip down and really go to work. Takin' down what others have put up is my specialty!"
